

Puppy Purchase Agreement

General Health Guarantee

Lone Star Labradoodles offers a seven-day general health guarantee. Your new puppy will have been seen by a veterinarian, have a health checkup with a 100% clean bill of health, received appropriate shots, and have been wormed and desexed prior to your receiving the puppy. We require you take your puppy to a veterinarian of your choice (Owner's expense) within 72 hours of your puppy's arrival. If during this examination your puppy is found to have a chronic or serious health problem, he/she is to be returned to us immediately for either a refund of the purchase price of the puppy or a replacement puppy from the next available litter (Breeder's choice).

It is the Owner's responsibility to use reasonable judgment with their new puppy. Puppies should not be brought to a public place (i.e. pet store or park) until they have completed their full cycle of vaccinations due to risk of contagious illness.

The Breeder reserves the right to have the puppy examined by a veterinarian of our choice prior to replacement or refund.

Genetic Health Guarantee

Our dogs are guaranteed up to the age of 24 months against genetic conditions. If one of our dogs is determined by at least two veterinarians to have an inherited illness, we will offer a refund of the purchase price of the puppy or a replacement puppy from the next available litter (Breeder's choice).

Prior to 24 months of age, if one of our dogs is determined by OFA to have a hip score of moderately or severely dysplastic the Owner must submit a copy of both x-ray and report to the Breeder.

Owner should provide an environment that is conducive to the avoidance of environmental causes of Hip Dysphasia such as:

1. Not allowing your puppy to regularly go up and down stairs until they are one year of age.
2. Feeding your puppy high quality food or a raw food diet.
3. Keep your puppy's weight within normal limits.
4. Avoid strenuous exercise such as jogging long distances, agility training, or prolonged activities where your puppy has to jump to catch a frisbee or ball until he/she is one year of age.

We guarantee our dogs to the original purchaser only. If the dog is sold, the guarantee is void.

Not included in this guarantee are health problems arising from trauma, abuse or failure to maintain general health care of the dog.

The Owner must follow a regular schedule of all vaccinations including rabies and administer monthly flea, tick and heartworm medications. To exercise right under this guarantee, Purchaser must provide written proof that the dog has received reasonable veterinary care.

The Breeder reserves the right to have the puppy examined by a veterinarian of our choice prior to replacement or refund.

In the event that Purchaser desires to place the dog in a new home, Lone Star Labradoodles will rehome the dog. Under no circumstances will the Purchaser put the dog in an animal shelter. Purchaser may privately transfer or otherwise convey ownership of the dog to a new owner; however, all health guarantees are nontransferable.

The Purchaser shall indemnify and hold Seller harmless from injury to anyone or damage to any property that may be caused directly or indirectly by the dog.
